Blueberry Liqueur - cl 70

This liqueur, created according to the Alpine tradition, is characterized by intense fragrance and aromaticity. Based on natural juice of ripe blueberries and grappa, it has a strong, pleasant taste, which satisfies even the most demanding palates, in an elegant and attractive packaging.

Production Area: Veneto, Italy

Characteristics:

Blueberries are characterized by excellent nutritional properties and acknowledged anti-oxidation capacities. They can be enjoyed plain or used as an ingredient in many different preparations. Blueberries are harvested in the most suitable regions, where their growth is sustained by ideal conditions, and their juice is expertly mixed with our best grappa and sugar to create an intense, refreshing liqueur with a unique aromaticity. The quality of raw materials, combined with the natural extraction process, leads to a product which is particularly suited for a healthy lifestyle.

Organoleptic Characteristics:

Color and Appearance: Amaranth with purple tinges.

Bouquet: Intense and inebriating aroma of ripe blueberries.

Taste: Fresh, fragrant and pleasantly persistent, it is characterized by the taste of blueberry, perfectly balanced with the delicately aromatic note of grappa.
