### Distilled Dry Gin - cl 10

Gin is a strong and aromatic distillate. Its origin is linked to a Dutch medicine and physics professor, Franciscus De La Boe, who studied the properties of juniper essential oils obtained by re-distilling an infusion of berries macerated in pure alcohol. Adopted by British soldiers going back home from the Netherlands, it did not take long for gin to become a well know drink in Britain.

The Gin Spray distinguishes itself for its elegant and practical copper-toned bottle. Equipped with a food vaporizer it becomes a unique tool for bartenders, bakers and chefs to enrich the flavor and aromas of their creations.

For cigar lovers, this combination is a must-try. The meditation typically associated with smoking cigars is thus enriched by the fragrance of a spray of Gin Bacur on the cigar itself.

**Production Area:** Veneto, Italy

#### Characteristics:

Bacur Bottega is a Distilled Dry Gin produced using water from the Alps and exclusively Italian origin Botanicals. The Tuscan Juniper berries, sage leaves from Triveneto and Sicilian lemon zest are left to macerate separately in a solution of water and alcohol for a long time; after that, double distillation takes place, clearing the liquid from possible unwanted hints and leading to an elegant distillate with a fine, clean bouquet. The unique character of this gin is given by the scrupulous selection of raw materials, and its quality and complexity depend not only on the quantity of plants used, but also on the conditions in which aromatic compounds are extracted from each of them.

### Organoleptic Characteristics:

**Color and Appearance:** Colorless and crystal clear.

**Bouquet:** It opens with an intense scent of juniper, followed by citrus notes of lemon zest, and closes with sage hints.

**Taste:** Smooth and balanced, it delicately warms the palate without being aggressive, leaving a pleasant perfumed perception in the mouth.

### Chemical Characteristics:
